

## Office in the Cloud

Easy, Fast and Secure

Setting up remote offices or branch offices is probably not one of your favorite tasks. You are hit by the same problems over and over again deploying the same environments everywhere. Not to mention your CFO who is desperately looking for an OPEX driven approach to IT.

Sounds familiar? Read on!

**Pathway Communications Group** provides you an all-inclusive Office-in-the-Cloud offering that will cater to any of your needs; big or small. Our Office-in-the-Cloud delivers a number of desktops, email-server, application and/or database server, firewalls and networks, all pre-configured deployed with just a few clicks. With our Office-in-the-Cloud you can focus on what matters most to your business and not worry about any of your IT infrastructure. Our Office-in-the-Cloud is Always-On and Always-Available and is hosted on our Enterprise graded Cloud infrastructure, stored in Datacenters across the US. Security is guaranteed as if you would be working with your own physical machines in your office.

For a small, all-inclusive monthly fee you gain access to the complete platform and functionality. No strings attached. Our Office-in-the-Cloud scales with your business. Easily!
